**College:** McAnulty College and Graduate School of Liberal Arts

**Syllabus:** HCE-643, ETHICS of CARE, Spring 2015

**Course:** 3:05-5:45 pm Monday 01/12 Fisher Hall 609, Tuesday 02/17 Fisher Hall 722, Monday 03/16 Fisher Hall 609, Monday 04/13 Fisher Hall 609

**Office hours:** Appointment, 301A Fisher Hall  
Tel. 412.396.2616  
Email: gielenj@duq.edu

**Course instructor:** Joris Gielen, Ph.D.  
Duquesne University, 600 Forbes Avenue, Pittsburgh, PA 15282

**Outline**
In this seminar, we study the contribution of care ethics to bioethics. Principlism’s very strong influence on bioethics in the Anglo-Saxon world should not make us lose sight of other ethical theories which are conducive to bioethics. Care Ethics presents itself as a promising alternative theory. Throughout this course students learn to analyze bioethical issues using a care ethics approach. In the first part of the course the students are made familiar with the foundations and particular approach of Care Ethics. In the second part, we assess to what extent Personalism can enhance a Care Ethics approach. In the third part, this approach is applied to care for the elderly.

**Course Objectives**

a) **Course Description**
This course follows a seminar format which after an introductory session devotes most of class time to presentations by students, group discussion and development of the research essay. Through their own research and the critical input of other students the students become aware of the importance of Ethics of Care to bioethics; they become familiar with the complementarity of Personalism and Ethics of Care; and they learn to apply a Care Ethics approach to bioethical issues.

b) **Competencies**
Upon completion of the course students should master the following competencies, as should be demonstrated in specific research projects and presentations, class participation and in the research essay:

- The capacity to critically analyze the differences or complementarity between Care Ethics and other ethical theories in bioethics
- The ability to search for answers to bioethical issues using a Care Ethics approach
- The capability to succinctly and convincingly communicate (orally and in writing) about bioethical issues from a Care Ethics perspective
- A capacity for argument formation, literature integration, and critical analysis on Ethics of Care
- The ability to provide ethical advice and function with confidence and understanding in settings which focus on long term care, such as elderly care
c) **General HCE Program Learning Outcomes**
The following HCE Program Learning Outcomes pertain to this course.

**Fundamental Knowledge.** Students can understand and analyze how Ethics of Care contributes to health care ethics.

**Multi-disciplinary Study.** Students can critically relate a Care Ethics discourse with multi-disciplinary fields in health care as a diverse and global enterprise (e.g., empirical research, medicine, philosophy, religion, science).

**Scholarship.** Students can research and write scholarly essays, teach and communicate effectively, and present academic papers that present cogent argument(s), engage scholarly literature, and demonstrate critical thinking and analysis on ethics of Care.

**Professionalism.** Students can integrate academic learning with experiential learning by applying Care Ethics to practical and professional issues in health care.

**Ethical Leadership.** Students can function with expertise and provide ethical leadership in long-term care settings.

**Course Procedures**

a) **Research Projects and Required Readings**

a.1) **General Procedure**
For this seminar, the students have to complete four written assignments: three research projects (each 9 pages and an oral presentation) and one research essay (25 pages plus end notes & bibliography). Students will prepare and submit these assignments as per the schedule below.

i. Research Project #1, week 1-5, due Thursday, February 5
ii. Research Project #2, week 6-9, due Thursday, March 12
iii. Research Project #3, week 10-13, due Thursday, April 9
iv. Research Essay, week 14-16
   - Submit Essay thesis, a 500 words abstract, outline, and basic bibliography, by Monday, March 2.
   - Option to submit mid-term essay. For students who want to be assisted in their progress, a draft of the essay can be submitted for feedback by Monday, March 30.
   - Final version is due Wednesday, April 29.

**Reading Requirements.** Each Research Project will require students to critically engage the equivalent of two books to (a) master the relevant knowledge and (b) engage in critical reading and writing.

**Literature integration.** Students should include approximately 30 notes in each 9-page research project referring to the texts assigned for the project. If students want to integrate other relevant literature (including the prescribed literature from other research papers of this course are another course) they are free to do so. Endnotes and bibliography as well as title page and table of content do not count within the 9 pages.
Research competencies. The research competencies in the course are identified by the three Research Projects: (a) theoretical analysis of Ethics of Care, (b) comparative analysis, and (c) applied analysis. Each Research Project will demonstrate that the student has mastered the specific competency.

Relation of Projects with Essay. The three Research Projects may be integrated into the Research Essay but not in a manner of cut-and-paste from one to the other. The Research Essay typically demonstrates that the student has mastered a specific research competency. While the research papers are focused on one specific competency, the course essay must demonstrate all three competencies. The course essay furthermore is based on a self-selected thesis different for each student, while the topics of the research papers are given and similar for all students.

a.2) Research Project #1: Theoretical analysis of the challenges posed by Ethics of Care
After a brief historical introduction into the Ethics of Care in this course’s first session, the students study possible contributions of Care Ethics to bioethics. By critically and creatively engaging the assigned texts, the students determine whether and how Ethics of Care can challenge bioethical thinking in general. The students choose a title for their paper which somehow reflects their answer to this question.

Required readings. The journal articles will be available through the Gumberg Library e-reserves. The link to the readings is: [http://guides.library.duq.edu/er.php?ecid=11479](http://guides.library.duq.edu/er.php?ecid=11479). The password is: ethics.

- Edwards, Steven D. "Is There a Distinctive Care Ethics?". Nursing Ethics 18, no. 2 (2011): 184-91.

a.3) Research Project #2: Comparative analysis of Personalism and Ethics of Care
Personalist bioethicists look at health care issues from a particular perspective which may also enhance the Care Ethics approach. Starting from the observations from the first research paper and engaging the additional required readings, the students critically compare Personalism and Ethics of Care and determine whether and how Personalism can enhance a Care Ethics approach to bioethical issues. Also here, the students choose a title for their paper which somehow reflects their answer to the research question.

Required readings

**a.4) Research Project #3: Applied analysis**
Throughout the research for the first two research papers the students have acquired a good understanding of Care Ethics in relation to bioethics in general. In the third research paper, they apply this expertise to a concrete bioethical issue in the care for advanced dementia patients. In the paper’s title students mention the bioethical issue and give an indication of the way(s) in which Care Ethics provides a solution.

**Required readings**

**b) Research Seminars**
There will be four seminars. After the introductory first seminar, in each of the seminars, the focus will be on one of the three research competencies. For these sessions, students will be requested to prepare a presentation of maximum 15 minutes of their research papers. Power point or overhead may be used (but no need); the allotted time may not be exceeded. Each student will do one formal presentation in the course. In the first seminar, a schedule of these presentations will be made so that students know on which day they are expected to do their presentation. Other students may be invited to discuss their project and to comment on their colleagues’ presentations.

1. **Week 1: Mon Jan 12** Seminar #1: introduction
   i. Introduction to the course
   ii. Introduction to Ethics of Care
Discussion of research paper requirements and course essay

2. **Week 6: Tue Feb 17**, Seminar #2: theoretical analysis of the challenges posed by Ethics of Care (Research Project #1)
   i. Discussion of progress on research essays
   ii. Presentations of completed Research Project #1

3. **Week 10: Mon March 16**, Seminar #3: comparative analysis of Personalism and Ethics of Care (Research Project #2)
   i. Discussion of progress on research essays
   ii. Presentations of completed Research Project #2

4. **Week 14: Mon April 13**, Seminar #4: applied analysis (Research Project #3)
   i. Discussion of progress on research essays
   ii. Presentations of completed Research Project #3

c) **Research Essay**

The research essay will require students to substantively apply the Research Competencies of this course to a particular issue (theoretical or practical) in healthcare ethics. Throughout the essay the students develop a focused argument which shows the relevance of a Care Ethics approach to ethical issues in long term care. This can be elderly care, and particularly care for patients suffering from advanced dementia, but students may also focus on another kind of long term care.

**Requirements:**

1. Start to reflect on the thesis of your course essay from the beginning of the course.
2. Thesis, a 500 words abstract, outline, and basic bibliography to be submitted by Monday, March 2.
3. Students will receive feedback in Seminar #3.
4. Progress will be reported in Seminar #4.
5. Submit a copy of the essay by date assigned.
6. The course essay length should be at least **25 pages**, double-spacing; the main body of text; title page, table of content, endnotes and bibliography do not count within the 25 pages.
7. Students must adopt the format of the *Chicago Manual of Style*, as required by the College for dissertation submissions.
8. Students can quote from publications in any language, but need to provide an English translation.
9. Select an Essay Title that reflects a research thesis.
10. Make a Title page and a separate Table of Content.
11. Present a brief Introduction and Conclusion.
12. Notes to the references made in the essay.
   a. Use end notes (as opposed to foot notes at the bottom of the page).
   b. Do not use notes for narrative explanations – they belong in the main text.
   c. There should be approximately 100 end notes in the essay.
13. Bibliography. List all the references in alphabetical order. Only list items actually referred to in the essay.
14. Divisions and subdivisions. Use major divisions (headings) and subdivisions (subheadings), evenly distributed throughout the essay, to lay out the sequence of concepts and arguments.
15. Use of online references. Online references must be accurately identified with complete web address etc., including the date of access. Students are requested to critically deal with content from the internet.

HCE Handbook. The Center for Healthcare ethics has developed a Handbook of Policies, Procedures, and Guidelines to guide students in all curriculum related matters.

Course grade. There will be no examinations. The course grade will be assigned based on the quality of the course research essay and the three research projects. The grade will be a combination of 10% for each of the three research projects and 70% for the final essay.

No midterm grades will be assigned. End of term grades will be assigned adopting grading policy in the McAnulty College and Graduate School of Liberal Arts, as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Value</th>
<th>Description</th>
</tr>
</thead>
