

Graduate Program Discounts are Available for Duquesne Graduating Seniors

It is my understanding that you plan to complete your undergraduate degree this semester.

Due to a weak economy and sluggish job recovery, I want to let you know that Duquesne is offering graduating seniors the opportunity to pursue a graduate degree at a 25% tuition and fee discount. Since this discount is limited to certain programs, please read the information below to learn more about eligibility, benefits and the available academic programs.

If you are interested, you must apply and be accepted to one of the eligible programs listed below. Please visit the website of the eligible program for specific application information. You can apply online at:
www.duq.edu/apply/grad

If you are accepted and enroll for the upcoming Summer or Fall 2011 semester, please contact the Office of Financial Aid at 412.396.6607 so that your 25% discount can be applied to your student account.

Student Eligibility

This program will be offered for a limited time and is restricted to Duquesne University undergraduate students who will graduate in fall 2010, spring 2011 or summer 2011. In order to qualify for this program, students must 1) apply and be accepted to one of the eligible academic programs and 2) must enroll for at least six credits no later than fall 2011. Students who enroll for fewer than six credits in any given semester will not be eligible for this program. Summer semester enrollment is not required, however discounts will apply if students decide to enroll for six or more credits.

Some exclusions may apply: students who already receive tuition remission or any other form of a University scholarship or tuition discount are not eligible for this program.

Student Benefits

- Individuals with advanced degrees typically have higher earning potential
- Students enrolled for six or more graduate credits may defer payment on educational loans
- Employment prospects and the economy may improve while you are attending graduate school
