

The American Pharmacists Association Academy of Student Pharmacists (ASP) annual auction was held on February 8th, in the Union Ballroom. The auction raises money for the ASP annual conference.

Every student in the School of Pharmacy is automatically a member of ASP. The organization's mission is to be a collective voice for student pharmacists and prepare them to be pharmacy professionals. The American Pharmacists Association, founded in 1852, is the first and largest professional association of pharmacists.
