

# Residency Programs

## **Duquesne University Center for Pharmacy Care PGY1 Community Practice Residency**

Program Director:  
Suzanne Higginbotham, B.S., Pharm.D.  
higginbothams@duq.edu  
412.396.2053

This unique PGY1 residency is based at a pharmacist-run ambulatory care clinic on Duquesne University's campus where residents will master medication therapy management for various disease states in a variety of health care settings. The resident will be responsible for achieving optimal drug therapy outcomes as part of interdisciplinary health care teams while demonstrating competency in communicating and educating other health care professionals, patients, students and the community on drug-related topics.

## **Duquesne University/Giant Eagle Corporation PGY1 Community Practice Residency**

Program Director:  
Jamie McConaha, Pharm.D., CGP  
mcconahaj@duq.edu  
412.396.2219

The Duquesne University Mylan School of Pharmacy and Giant Eagle Pharmacy offer a community practice residency directed toward a highly individualized training program. Residents will become community pharmacy practitioners with advanced practice, leadership, teaching and research skills.

## **Center for Pharmacy Services PGY2 Community Practice Residency**

Program Director:  
Terri Kroh, R.Ph.  
kroht@duq.edu  
412.246.0963

The Center for Pharmacy Services is an independent community pharmacy owned by Duquesne University and operated by the Mylan School of Pharmacy. The pharmacy provides residents of the community a full range of patient-centered pharmacy services with a focus on medication therapy management, disease management and wellness. The pharmacy seeks to improve access to affordable medication by coordinating resources and delivery options to improve adherence through regular patient contact. The pharmacy also enhances drug therapy through prescribed collaborative and point-of-care testing. Residents will develop the management and clinical skills necessary to practice and eventually lead a patient-centered community pharmacy practice.

## St. Barnabus Long-Term Care Residency

Program Director:  
Christine O'Neil, Pharm.D., BCPS, CGP, FCCP  
oneilc@duq.edu  
412.396.6417

This residency features a team-based approach to long-term care, blended with opportunities in a more traditional consultant pharmacy. Residents will develop expertise in various disease states common to the long-term care and assisted living setting, including geriatric pharmacotherapy, post-acute care rehabilitation, dementia, pain management and facilitating the transition of care from the acute care setting to discharge. The residents will refine overall clinical skills, actively participate in selection of drug therapy, evaluate and monitor this therapy, provide resident and family education, participate in interdisciplinary care rounds, provide professional communications and exhibit decision-making and problem-solving skills.

## Trinity Health System/Duquesne University/Palliative Therapeutics PGY1 Residency

Program Director:  
Lodge Bliznesky, Pharm.D.  
lbliznesky@trinityhealth.com  
740.264.8663

This residency prepares students to become experienced clinicians with outstanding communication skills and the ability to improve patient health outcomes.

## Walgreen's Specialty Practice PGY1 Residency

Program Director:  
Pamela Koerner, Pharm.D.  
koerner@duq.edu  
412.396.6372

The Walgreen's Specialty Pharmacy and Duquesne University Pharmacy Practice Residency, with a focus in specialty pharmacy, provides pharmacy residents with opportunities to develop the fundamental skills necessary to excel in the specialty pharmacy environment. Residents will gain insights on the pharmacy practice management issues that can affect the delivery of care for patients taking specialty medications. In addition, the partnership allows the resident to acquire experience in health/wellness services and develop teaching and research skills.

## Mission

The mission of the Duquesne University Mylan School of Pharmacy and Graduate School of Pharmaceutical Sciences is to educate and mentor students who advance the profession of pharmacy and pharmaceutical research to improve the health outcomes of patients and their communities.
