Introducing a New Annual Honorary Program...

**Pioneers of Forensic Science**

**Honoring**

**Dr. HENRY LEE**

**A Life in Criminalistics**

Thursday, June 1 – Friday, June 2

Duquesne University
Pittsburgh, PA

One of the world’s foremost criminalists, Dr. Lee is known for his work on such matters as the JonBenét Ramsey killing, the O.J. Simpson case, the D.C. sniper shootings, the death of Deputy White House Counsel Vincent Foster and the Caylee Anthony investigation. Now chief emeritus of Scientific Services for the State of Connecticut, he has served as the state’s commissioner of Public Safety, Forensic Science Laboratory director, and chief criminalist. Dr. Lee is founder of the University of New Haven’s Henry C. Lee Institute of Forensic Science and namesake of its Henry C. Lee College of Criminal Justice and Forensic Sciences. He also serves as editor of several academic journals and has authored more than 30 books.

To honor his illustrious career, this program will combine scholarly presentations by current and former colleagues, panel discussions on particular cases and topics, and a “flipped panel” in which Dr. Lee will respond to questions from an interdisciplinary group of experts about the highlights and challenges of his career. Featuring such fellow pioneers as forensic pathologist Michael Baden, famed trial attorney F. Lee Bailey, criminal defense attorney Mark Geragos, Lee Institute Executive Director Timothy Palmbach, forensic science educator Victor Weedn, and the Institute’s own namesake, Dr. Cyril Wecht, this conference will also feature a VIP cocktail reception and sit-down dinner in his honor.

**REGISTRATION** for this conference will **OPEN in JANUARY**.
