Attention Electronics Manufacturers!!!

Did you know?

✓ CE mark must be affixed on your product to prove it is ROHS compliant?

✓ Your ROHS documentation control system must be auditable and up to date.

✓ You must demonstrate without doubt that ALL the components and parts incorporated into your product are ROHS compliant. You must have records and testing reports to prove it.

Are you complying with the new ROHS rules for chemicals in electronics?

Are you familiar with CE mark requirements such as electrical, mechanical and electromagnetic testing?

CITRA consultants can help!
