Ensure Full Compliance

RoHS & REACH impose stiff penalties for companies that fail to fully comply with documentation and user information duties.

SVHC FACTORY provides your company with an easy to use program which allows you to collect, compile, and identify critical information on chemical substances regulated, restricted, or banned by RoHS, REACH, and other global and US chemical regulations.

This is one-stop shop solution for you chemical substances regulatory compliance needs.

Are You Affected by REACH?

REACH is required by the EU for products containing chemical compounds. It is also required by US exporters for all suppliers exporting products to the EU. You may not be an exporter but you may have to comply.

REACH applies to solvents, fragrances, metals, alloys, pigments, dyes, fertilizers, cosmetics, detergents, polymers, electronic equipment, furniture, textiles, toys, etc.

CITRA provides various training programs for REACH & RoHS. For further information regarding our training programs, please call us on 412-396-6233, or email us at mancheg672@duq.edu.
