

## **HCE Colloquium & Student Seminars, 2014/15**

Each year, HCE holds 6 **Mandatory** Student Seminars plus one HCE Colloquium each semester. The Seminars can be aligned with the Academic Learning Outcome Assessment (ALOA) plan with each Seminar discussing one of the Learning Outcomes for the program. They can also focus on the work of students in the phase of writing their dissertation or topics in contemporary bioethics.

The topics and dates of the Seminars and Colloquia are listed below for 2014/15. All HCE students in course work are required to participate. If you cannot participate, you must meet the Director, Dr. ten Have, prior to the seminar. Please make an appointment with Glory Smith ([smithg@duq.edu](mailto:smithg@duq.edu)) for that meeting.
