

## **HCE Colloquium & Student Seminars, 2015/16**

Each year, HCE holds 6 Student Seminars plus one Kelly Lecture each semester.

The topics and dates of the Seminars and Kelly Lecture are listed below for 2015/16. All HCE students in course work are strongly encouraged to participate. If you cannot participate, please inform the Director, Dr. ten Have, prior to the seminar. The Spring Semester also provides an opportunity to train your presentation skills in a special Seminar focused on conference presentations. You are invited to submit an abstract, and then make a presentation. You will receive feedback from the Faculty so that this will be a learning experience preparing you for presentations in scholarly conferences and symposia in the country and abroad.
