The Center has a Liaison Program that supports faculty teaching and scholarship. This program is intended to help facilitate the faculty use of the many resources the Center has to offer. Each faculty member is assigned a librarian as a liaison. The faculty member is welcome to deal directly with assigned librarian or any librarian in case the assigned liaison is not available. The liaison contacts each faculty member quite often to explain the Center’s services and to learn faculty research needs. Librarians monitor subjects of interest to individual faculty members and provide them with current information.

---
