

## **HCE Colloquium & Student Seminars, 2011/12**

Each year, HCE holds 6 **Mandatory** Student Seminars plus one HCE Colloquium each semester. For 2010/11, the Seminars have been aligned with the Academic Learning Outcome Assessment (ALOA) plan with each Seminar discussing one of the Learning Outcomes for the program. For 2011/12, the focus will be on the work of students in the phase of writing their dissertation. While the first Seminar will have a general nature, and the second one will focus on resources for writing and documenting literature, in the subsequent Seminars the topic of the dissertation of one of the students in the HCE program (after approval of the research proposal) will be presented and discussed.

The topics and dates of the Seminars and Colloquia are listed below for 2011/12. All HCE students in course work are required to participate. If you cannot participate, you must meet the Director, Dr. ten Have, prior to the seminar. Please make an appointment with Glory Smith ([smithg@duq.edu](mailto:smithg@duq.edu)) for that meeting.

### **Fall Semester, 2011**

- Seminar # 1 Research in bioethics and writing a dissertation (Ten Have)
