

**Supercomputers • Super Chemistry**

# SUPER EXPERIENCE!

Research Experiences for Undergraduates at Duquesne University

**Ten-Week  
Summer Program**  
May 19 - July 25, 2008

Featuring:

- Ethics Forum
- Community Service
- Research Symposium
- Seminar Series
- Social Events

**ASSURE**

**REU**

Attend one of the nation's only summer research programs enabling students to use supercomputers as a tool to solve chemistry problems in:

- Nanotechnology
- Homeland security
- Forensic Science
- Pharmaceutical drug design
- And more!

Stipends start at \$3,300, plus housing and travel expenses. Work with computer industry experts and world-renowned faculty from across the U.S.
