

Do you qualify for a GMAT Waiver?

**Have you earned a bachelor's degree from an AACSB-accredited business school?
Do you have a 3.3 cumulative GPA or higher?**

Donahue Graduate School of Business GMAT Examination Waiver Policy

We make it easier for applicants who already have an undergraduate business degree to apply and be admitted to any of our graduate programs.

Specifically, we waive our GMAT requirement for any applicant who graduated in the last 10 years with an undergraduate business degree from an AACSB-accredited business school and who earned a cumulative GPA of 3.3 or higher. If you meet these criteria, then you don't have to take the GMAT to apply to any of our programs.

If you have already taken the GMAT, you may opt to exclude your GMAT scores from consideration in our admission decision. Choosing this option means that our admission decision will be based on all other elements of your completed application. Of course, applicants who are not admitted under these conditions can still subsequently submit a GMAT score to be reconsidered for admission.

If you do not have an undergraduate business degree or earned a business degree from a non-AACSB school, then you will be expected to submit a GMAT score, regardless of your undergraduate GPA.
