

THE BUSINESS OF
DIFFERENCE MAKING

MSSSCM

**Master of Science in
Supply Chain Management**

MCSCM - Master's Certificate in Supply Chain Management

A woman with long, dark, curly hair, wearing a light blue button-down shirt, is seated at a desk in a warehouse or office environment. She is looking down at a laptop screen. The background shows wooden pallets, blue shelving units, and cardboard boxes, suggesting a supply chain or logistics setting. The overall lighting is bright and professional.

Duquesne delivers.

Make an impact from day one.

From day one of the program, Duquesne University's Master of Science in Supply Chain Management supplies you with new ways to drive innovation and manage a global supply chain. You will become an influential leader with the skills to make a difference.

The Duquesne Difference

We focus on information systems and technology across our integrated supply chain curriculum. You will enhance the overall effectiveness and efficiency of any supply chain by using state-of-the-art technological systems, including:

- Advanced planning and scheduling
- Procurement management
- Transportation and warehouse management systems

***STEM-Designated Program**

Impact an organization's bottom line by impacting the supply chain.

Duquesne's MS in Supply Chain Management is designed for individuals who want to advance their careers, seize opportunities and impact any organization's bottom line through the supply chain.

The program format of hybrid courses and HyFlex sessions provides flexibility and convenience along with opportunities to collaborate on real projects and network with industry leaders.

Maximum flexibility for working professionals.

- 10 cutting-edge courses
- 30-credit degree program with HyFlex evening and hybrid classes
- Complete the program in less than 2 years

Accredited by AACSB International, the Association to Advance Collegiate Schools of Business. Less than 5% of the world's business programs have earned this prestigious accreditation.

Solve industry challenges through experiential learning.

We make it real! Our experiential learning approach provides you with the same challenges business leaders face every day. In collaboration with faculty, students, alumni and business leaders, you will solve global supply chain issues through real-world projects. In your capstone class, you'll consult on a supply chain project with a non-profit or corporate partner. You will also establish deep connections with supply chain management professionals and alumni.

You'll succeed with our comprehensive curriculum.

Certificate Option

Earn your Master's Certificate in Supply Chain Management (MCSCM)

Already have a graduate degree or business experience but want to make your mark in supply chain management? Then Duquesne's AACSB International accredited certificate program is an ideal option.

Our MCSCM program is also ideal if you have a bachelor's degree and are interested in improving your skills across all functional areas in supply chain management. The program format allows you to tailor the certificate to your individual career goals and then immediately apply that knowledge in the workplace.

Hybrid learning offers maximum flexibility for working professionals.

- 5 cutting-edge courses
- 15-credit graduate certificate program with face-to-face evening and hybrid classes
- Complete the program part-time in just 1-year
- Curriculum that can lead to Six Sigma Green and Yellow Belt Certification and APICS Certifications

Further your certificate toward a master's degree.

You can apply your Duquesne certificate credit courses toward the MS in Supply Chain Management. In the meantime, your certificate will boost your career advancement potential.

Our curriculum. Your success.

Duquesne: a nationally ranked Catholic University.

Duquesne is nationally recognized for its outstanding academic and research programs and its commitment to community service and sustainability. The University has earned accolades from *U.S. News & World Report*, *Princeton Review*, *Bloomberg Businessweek* and *Washington Monthly Magazine*.

Admissions Criteria

The Master's and Certificate programs in Supply Chain Management accept students in the fall semester. As an applicant, you have the opportunity to complete the program at a full or part-time pace. We take a holistic approach in reviewing applications for admission. The following are required for admissions consideration:

- **Official transcripts** from all undergraduate and graduate institutions attended. A 3.0 or better GPA is preferred.

- **Work Experience:**

All prior professional work, including internships, is weighted heavily in the application review.

- **Résumé** outlining your professional work experience, educational background and roles and responsibilities.

- **Two application essays:**

1. Please provide a summary of your academic and professional background, current career endeavors, motivation for pursuing a graduate business education and future career goals.

2. The Palumbo-Donahue School of Business is in 'The Business of Difference Making.' Explain what this means to you and how you would contribute to this goal as a student and eventually as an alumnus(a).

- **Two letters** of recommendation (professional or academic)

- **GMAT or GRE scores.** A 500 or better on the GMAT or a 305 or better on the GRE is preferred for admissions consideration. GMAT/GRE waivers are available for qualified applicants. **Many individuals request and are granted a GMAT/GRE waiver.**

- **TOEFL, IELTS or Duolingo** (for international applicants). A TOEFL score of 90iBT, an IELTS score of 7.0 or better, or a DET score of 115 or better is required for admissions consideration. Conditional admission is available for students who score below the TOEFL/IELTS/Duolingo requirement.

If you have questions about your application, please contact grad-bus@duq.edu or 412.396.6276 for more information.

Do you qualify for a GMAT/GRE waiver?

You may be able to waive the GMAT or GRE if you:

- graduated from an AACSB-accredited business school or ABET accredited engineering program within the past 10 years and earned a 3.25 or greater cumulative GPA. Exceptions are made on a case-by case basis for those graduating with an undergraduate degree from a non-AACSB accredited program.
- have three or more years of continuous, full-time professional work experience. Factors considered in the waiver decision include the type and substance of work experience and the academic record as indicated on official transcripts.
- have previously earned a graduate degree. Factors considered in the waiver decision include the program of study and your academic record as indicated on official transcripts.

Be a difference maker from day one!
