

## Books on Assessment of Learning

These recent books on learning assessment are available for loan through the Center for Teaching Excellence special collection (and searchable through Gumberg Library DUCAT).

Some of them focus primarily on *course-level* assessment of students and are relevant to designing and grading assignments and tests. Others are more pertinent to big picture *program-level* assessment, and the gathering of evidence that students are meeting degree level outcomes, for example. Others provide helpful resources for assessing learning at the *institutional level* in order to examine student learning relevant to Duquesne's Mission and to the Dimensions of a Duquesne Education .
