

RSHS Class Recording Policy

Use of any recording device is prohibited in any didactic or clinical course/experience without prior written permission by the course instructor/supervisor and subjects being recorded.

When permitted to record, the student must understand (1) that a single recording is to be made (2) that it is **not** to be duplicated, excerpted, transferred, placed on the internet, or shared with others, (3) all HIPAA standards will be followed, and (4) that the recording is to be erased at the end of the semester or before, as requested by any of the interested parties mentioned above.

Failure to abide by this policy will be considered to be a violation of the professional code of conduct.
