## Sharing Your Phone Images Through ClickShare

- Download **ClickShare Presenter app**
- Change phone Wi-Fi settings to the local ClickShare network
  - Password = clickshare
- Open ClickShare App

- Select one of options:

- Document
- Photos
- Camera
- Functions (to add extra features)

- Press the blinking white circle to begin to share
- Select the proper ClickShare network

You screen should now be sharing throughout the room. You may scroll through your pictures and annotate over them by selecting the pen in the lower right corner of the screen.
