

Displaying Full Screen Images on Flat Panels

- Find image on the internet
- Right click and select **COPY**
- Navigate to the desktop
- Right click and select **PASTE**
- Double click the image on the desktop
- Click the **BLUE SQUARE** at the bottom of the screen or press **F11** to provide a full screen image

- If you desire a static image and there is more than one image saved to the desktop, right click on the full screen image and select **PAUSE**. This will prevent the slide show from progressing to the next image.
