

Test2Learn™

Community Based Pharmacogenomics Certificate Program

ABOUT THE PROGRAM

The National Association of Chain Drug Stores (NACDS), in partnership with the University of Pittsburgh School of Pharmacy have adapted Test2Learn™ from an innovative platform that enables students to learn by using real genetic data in highly-interactive exercises.

Through on-line home study and in-person live components pharmacist participants will:

- Learn the principles of pharmacogenomics and its practical implications in disease states such as cardiology, oncology, neurology and infectious disease
- Be trained to decipher tests, translate results, and make appropriate recommendations to help optimize patient medication regimens
- Engage in the in-person aspect of the program
- Receive the instruction necessary to administer the training to others
- Partake in an optional opportunity to undergo personal genomic testing

ACCREDITATION INFORMATION

The National Association of Chain Drug Stores is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

- Successful completion of the certificate program will result in 20 hours of Continuing Pharmacy Education (CPE) credits (2.0 CEUs)

Reservations for the program cannot be held until the registration fee is received. Cancellations received in writing at least seven days prior to the program will receive a full refund minus a \$150 cancellation fee. We reserve the right to cancel the program. In that event, each participant will be notified via phone and a full refund will be made. Additional program details and access to online self-study materials will be provided via email upon receipt of registration fee.

The Duquesne University School of Pharmacy presents *Test2Learn™ Community Based Pharmacogenomics* through a partnership with the National Association of Chain Drug Stores.

AGENDA

- Clinical Decision-Making Process
- Leveraging Information Resources
- Predicting Pharmacogenetic Phenotypes From Genetic Data
- Communication With Prescribers
- Pharmacogenomic Implementation Barriers
- Transitions Of Care, Community Implementation Models

LOCATION

Duquesne University
School of Pharmacy
Pittsburgh, PA 15282

FACULTY

Elizabeth Bunk, Pharm.D.

Holly Lassila, B.S. Pharmacy,
M.P.H., Dr.P.H
