Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Students who believe that they have fulfilled a particular requirement at another school may petition for advanced placement and waiver of the equivalent course. However, due to Duquesne's unique emphasis on psychology as a human science, it is rare for more than a few courses to be approved for advanced placement. Advanced placement credits are not granted for elective courses. Hence, credit for prior graduate work does not typically alter a student's time to degree.
