Duquesne’s students, faculty, staff and partners work to make a difference in Pittsburgh, throughout western Pennsylvania and beyond.

The Office of Community Engagement (OCE) connects University and community resources across five areas of impact:

- SERVICE
- HEALTH AND WELLNESS
- EDUCATION
- INDIVIDUAL EMPOWERMENT
- GROWTH AND INNOVATION

Mobilizing Resources Across Campus

At Duquesne, service is more than a time-honored tradition. It is a shared commitment of our entire campus community. Each year members of Duquesne provide more than 248,000 hours of service—offering expertise, resources and services to individuals, groups, organizations and the general public. By doing so, Duquesne continues to honor its mission of contributing to the development of our city, the region, the nation and beyond for a more peaceful and just world.

If you would like to talk about a collaborative project, or if you are looking for volunteers for a specific event or initiative, the Center for Student Involvement can connect you to assistance.

Duquesne University Center for Pharmacy Care

The Spirit of Health Initiative brings much-needed preventative care and health education to underserved communities throughout Southwestern Pennsylvania.

Services offered:

- Free adult screenings (diabetes, heart disease, Hepatitis C, bone density and asthma)
- Educational programs (diabetes and tobacco cessation)
- Medication Therapy Management (MTM) services
- Overdose prevention and tobacco cessation programs
- Adult immunization and travel health services

The School of Pharmacy also has a Pediatric Asthma Awareness and Management Program. Free asthma screenings and referral services are offered throughout select school districts and communities in Allegheny County. There also are several free, school-based health education programs offered for youth, grades pre-k – 12: Asthma and Food Allergy Awareness (Pre-k – 1); Katie’s Kids Safe Medication Use (k-2); Smoking Prevention (1-5); and Drugs of Abuse (6–12).

Duquesne School of Education Reading Clinic

As a non-profit educational service of the Duquesne University School of Education, the Reading Clinic has been helping children and their parents since 1964. Students ages 6–17 can benefit from affordable, research-based assessment and tutorial services in a nurturing environment that fosters confidence and academic achievement.

The Reading Clinic offers:

- Experienced reading specialist clinicians who prioritize children’s needs
- Individualized and group instruction, tailored to each student’s age and unique needs
- Evaluation results and final tutoring progress reports
- Workshops for parents that address their concerns and provide information on how to support their children’s literacy development
- Convenient Saturday morning session times during fall and spring semesters
- Affordable tutoring fees

INDIVIDUAL EMPOWERMENT

Duquesne University Law Clinics

Duquesne University School of Law provides legal services to people who need, but cannot afford, legal representation. Located in the Tribune Center for Clinical Legal Education, clinic programs serve veterans, non-profit organizations and income-qualified individuals and families in civil rights, appellate court matters and other specific legal areas. The clinic mobilizes law students under the supervision of licensed/practicing lawyers.

The Duquesne Law Clinics offer services related to:

- **Civil Rights**: Students work on matters involving employment, housing and public accommodation discrimination. They also work with clients from the Urban League of Pittsburgh and the public to assist individuals with criminal record expungements and Pennsylvania gubernatorial pardons.

- **Education**: Students focus on helping parents and students navigate school disciplinary matters, including alternative education placements and suspension and expulsion hearings.

- **Family Law**: Students work under the supervision of a family law attorney to represent income-qualified clients with cases involving divorce, settlement, child support and child custody.

- **Unemployment Compensation**: Students receive hands-on training interviewing clients, reviewing claims, preparing cases and appearing before administrative judges to assist low-income clients with unemployment compensation matters.

- **Veterans**: Students assist veterans charged with offenses adjudicated through the Allegheny County Veterans Specialty Court Program. They prepare and present cases for disposition in the Court of Common Pleas.
