Founded in 2003, Duquesne's Phi Sigma Lambda chapter:

- Unites students in our Master of Forensic Science and Law program;
- Instills the aspiration to achieve high academic standing;
- Encourages each member to become more involved in community affairs;
- Strives to uphold ethical values including honesty and integrity; and
- Creates a lasting bond of friendship and loyalty.

Join a scientific community on campus that’s a perfect fit.

**Phi Sigma Lambda** is a professional fraternity designed to provide aspiring forensic scientists with a forum through which to share ideas and common interests, while studying at the Bayer School of Natural and Environmental Sciences. An organization that stresses dedication to scholarship and civic duty, Phi Sigma Lambda attracts students like you in a setting that fosters intellectual growth and personal development. By becoming a member of Phi Sigma Lambda, you would associate yourself among the best and brightest young students with a collective interest in forensic science.

### Service Activities

Phi Sigma Lambda provides great opportunities for you to be more involved with other Duquesne students, as well as local charities and organizations. Our chapter coordinates fundraising programs and volunteer opportunities that benefit health-related and humanitarian groups such as:

- The Innocence Project
- National Kidney Foundation
- Alzheimer’s Association
- Carnegie Science “Scitech Days”
- American Cancer Society “Relay for Life”
- Samaritan’s Purse “Operation Christmas Child”
- St. Vincent de Paul

### Make new friends and have fun through social activities and events.

In addition to serving the community, members of Phi Sigma Lambda find time to establish friendships and develop lifelong ties through various social affairs. Such activities include:

- Annual New Member Dinner
- Laser Tag
- Games and Movies Nights
- Bowling

Gain access to invaluable professional networking opportunities.

As a member of Phi Sigma Lambda, you can join other budding forensic scientists and present original research at major conferences, such as the American Academy of Forensic Sciences’ annual meeting and the Pennsylvania Forensic Science Research Exchange. Locally, you can assist the chapter and the Bayer School in developing lectures and events that attract top forensic science and law professionals, including the annual Wecht Institute Forensic Symposium luncheon.
