Delivering Medication Therapy Management Services

ABOUT THE PROGRAM

*APhA’s Delivering Medication Therapy Management Services* presents a systematic approach for developing, implementing, delivering, and sustaining MTM services. It includes an overview of the marketplace for delivering MTM services, guidance for implementing MTM services in pharmacy practice, a review of the essential skills and knowledge needed for performing MTM successfully, and an organized process for identifying medication-related problems. The purpose of this certificate training program is to prepare pharmacists to improve medication use through the delivery of MTM services in a variety of practice settings.

GOALS OF THIS PRACTICE-BASED PROGRAM:

- Advance public health and patient care through improved medication use.
- Provide training to enhance pharmacists’ ability to effectively provide MTM services.
- Motivate increased numbers of pharmacists to establish MTM services.
- Communicate benchmark practices for providing MTM services.

THE CERTIFICATE TRAINING PROGRAM IS CONDUCTED IN THREE PARTS:

- 10 hour (1.0 CEU) self-study modules with case studies and assessment exam
- 8.0 hour (0.80 CEU) live seminar with final exam
- Successful completion of the post seminar case exercise component involves completing 3 post cases and submitting an online attestation statement of completion

SELF-STUDY MODULES AND LEARNING OBJECTIVES

The self-study learning activity is designed to ensure that all participants have an understanding of MTM related services. There are four learning modules that present in-depth information on the Pharmacists’ Patient Care Process, Planning for Success, Getting Ready for MTM Service Delivery, and Conducting an MTM Encounter. The self-study program includes a self-assessment test and studies that are designed to help reinforce and evaluate participants’ understanding of key information and concepts. As the learner, you will gain experience interviewing patients, identifying and prioritizing medication-related problems, developing and implementing interventions, and documenting activities. In addition, you will have the opportunity to explore various business models and billing strategies and discuss plans for implementation.
