WELCOME TO THE MEDICATION THERAPY MANAGEMENT PROGRAM

The Medication Therapy Management Program is a clinical pharmacist-run service whereby trained, clinical pharmacists help patients manage chronic disease states through optimizing the safe and effective use of medications. The program is incentivized by offering waived copayments (*HIGH DEDUCTIBLE PLANS INELIGIBLE) on medications used to treat your chronic conditions. Medication co-payments are waived at the point of sale and must be included in the Caremark formulary (refer to HR benefits page for more details).

Duquesne University Medication Therapy Management (MTM) Program Benefits

  o Hyperlipidemia  
  o Hypertension  
  o Diabetes  
  o Chronic Pain  
  o Depression  
  o Asthma | |

In order to successfully enroll you in the Medication Therapy Management Program at Duquesne University’s Center for Pharmacy Care, the attached THREE forms (Initial Intake Form, Cancellation Policy and Consent for treatment) MUST be completed and returned to CPC by mail or fax:

Center for Pharmacy Care  |  Muldoon Building | 1000 Fifth Avenue  |  Pittsburgh, PA 15282
FAX: 412-396-2155

Once completed forms have been received, an appointment should be made by calling 412-396-2155. After your first appointment is complete, you will then be eligible for copayment waiver and wellness dollars in your medical plan account.

Waived copays and wellness will not be credited until forms are received and the first MTM appointment is completed.
