
2. To calculate your grade, divide the number of points you have earned by the total points possible. Convert the resulting percentage into a letter grade using the following scale: 92-100%=A, 88-91.99%=A-, 84-87.99%=B+, 80-83.99%=B, 76-79.99%=B-, 72-75.99%=C+, 64-71.99%=C, 52-63.99%=D, 0-51.99%=F.

3. Your grade is based on four things: three mini-exams (each worth 40 points), a midterm and final exam (each worth 40 points), class attendance (worth 46 points — two per class), and the post-class exercises (worth 138 points — six per class).

4. Each mini-exam is designed to take no more than an hour-and-fifteen-minutes to complete. You do not need to come to the classroom on mini-exam days, as everyone will take them online. But you must take the exam during our scheduled class time on that day. Each mini-exam will be a mixture of reading questions and logic questions. The questions will appear in random order, and you will be able to answer each question only once. All mini-exams are open book and open note.

5. Each exam is designed to take no more than an hour-and-fifteen-minutes to complete. You do not need to come to the classroom on exam days, as everyone will take them online. But you must take the exam during the time scheduled for it on that day. How is an exam different from a mini-exam? The exam questions will not appear in random order, and later questions will require you to build on your answers to previous questions. You will still be able to answer each question only once. All exams are open book and open note.

6. Class attendance means, first of all, showing up on time. Class begins at 10:50am, but I will only drop your attendance points if you show up (physically or virtually) after 10:55am. If you have chosen to take the class online, attendance means Zooming in at the appropriate time and not leaving until class is over. If you have chosen to be physically present in the classroom, check the calendar to see if this is your day to be physically present. If so, then arrive at the appropriate time and be in the room, without obviously distracting yourself (with phone use, other work, etc.), for the entire class.
