The Pittsburgh Schweitzer Fellows Program

“I decided to make my life my argument.” - Dr. Albert Schweitzer

Who We Are: The Pittsburgh Schweitzer Fellows Program is a leadership training program which utilizes the Albert Schweitzer servant leadership model to impact health, social, and environmental justice in at-risk communities.

What We Do: Fellows design a direct service project that they implement through a community agency, school, or clinic.

Benefits: Fellows benefit from joining a network of professionals across a variety of disciplines. As alum of the program, Fellows for Life are part of a nationwide network of former Fellows.

Additionally, traditional Fellows receive a $2,000 stipend for 200 hours of service; Environmental Fellows receive a $2,500 stipend for 210 hours of service.
