Interested in a career in science? Underrepresented populations have the chance to stand out among their peers with a four-year, full tuition scholarship through Duquesne University’s Bayer School of Natural and Environmental Sciences.

Stand out among your peers with a full-tuition scholarship from Duquesne’s Bayer School.

The program accepts up to six highly qualified freshmen in the areas of chemistry and biochemistry, environmental science, biological sciences, forensics science and law, and physics. These freshmen will then become part of a cohort of students that have specialized programming for success, including special research opportunities, paid internships, community service projects, research presentation opportunities, and much more. In addition to the Bayer School Scholars Program, Duquesne’s Bayer School offers merit and need-based scholarships, ranging from $3,000 to $10,000. All accepted students to the Bayer School will be considered for these awards.

Apply before Friday, Jan. 17, 2020
